

# Understanding Alzheimer's and Dementia

An education program presented by the Alzheimer's Association.®

Alzheimer's is not a normal part of aging. It's a disease of the brain that causes problems with memory and thinking. We will discuss and explore the different Alzheimer's Association resources.

## Join us to learn about:

- The difference between Alzheimer's and dementia
- Alzheimer's disease stages and risk factors.
- Current research and treatments available to address some symptoms

In partnership with Aging and Adult Care of CW

Thursday, July 21, 2022

11:00am—12:30 p.m.

Aging & Adult Care of CW

270 9th Street NE

East Wenatchee, WA 98802
